Louisiana’s Community & Technical Colleges are proud to highlight our partners around the state. We believe that the root of our success lies in collaborations between our colleges and the communities they serve. This daily recognition is our way of showing appreciation for the work that our business partners have done and continue to do for Louisiana and its residents. We thank each of our partners for their contributions, and we look forward to working with more companies as we continue to build Louisiana’s workforce.

TODAY’S FEATURED BUSINESS PARTNER

International Paper Company Provides Training Opportunities for Incumbent Workers

Northshore Technical Community College (NTCC) is proud to serve International Paper Company by providing customized training opportunities for incumbent workers. Through a collaborative curriculum planning effort with International Paper, the Mechanical Maintenance Apprentice Training (MMAT) program was developed to invest in the upgrading of skills of existing employees. This innovative curriculum has also provided expanded flexibility within the college to meet the needs of similar industries.

“The development of the MMAT curriculum has had a direct impact on the college and students by allowing access to a diverse set of maintenance and mechanical competencies shared among the advanced manufacturing sector in southern Louisiana. We commend International Paper for the leadership in the enhancement of the training curriculum,” said William S. Wainwright, Chancellor.

NTCC also provides access to International Paper for annual safety and compliance training each January.

Thank you to International Paper Company for supporting our efforts to improve the quality of life of Louisiana residents through educational programming offered through our colleges.

THANK YOU FOR YOUR SUPPORT!
